Spatial demography of black-tailed godwits

Metapopulation dynamics in a fragmented agricultural landscape

The research presented in this thesis was carried out at the Animal Ecology Group, Centre for Ecological and Evolutionary Studies, University of Groningen, the Netherlands.

External funding for the research presented in this thesis was received from: '*Kenniskring weidevogels*' of the former Ministry of Agriculture, Nature Management and Food Safety, and since 2013 by the Province of Fryslân, with additional financial support of the *Prins Bernhard Cultuurfonds* (through It Fryske Gea), the *Van der Hucht de Beukelaar Stichting*, and *BirdLife-Netherlands*.

The printing of this thesis was partly funded by the *University of Groningen* and the *Faculty of Mathematics and Natural Sciences*

Spatial demography of black-tailed godwits

Metapopulation dynamics in a fragmented agricultural landscape

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. E. Sterken
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

vrijdag 9 januari 2015 om 14:30 uur

door

Rosemarie Kentie

geboren op 19 mei 1981
te Amsterdam

Promotores

Prof. dr. T. Piersma

Prof. dr. ir. C. Both

Beoordelingscommissie

Prof. dr. H. de Kroon

Prof. dr. W.J. Sutherland

Prof. dr. S. Verhulst

Contents

Chapter 1	General introduction	7
Box A	Numbers and percentages of black-tailed godwits in the Netherlands	16
Chapter 2	A modern landscape ecology of black-tailed godwits: habitat selection in southwest Friesland, The Netherlands	19
Chapter 3	Management of modern agricultural landscapes facilitates nest predation in Black-tailed Godwits (<i>Limosa limosa limosa</i>)	35
Chapter 4	Intensified agricultural use of grasslands reduces growth and survival of precocial shorebird chicks	53
Chapter 5	Age-dependent dispersal and habitat choice in black-tailed godwits (<i>Limosa l. limosa</i>) across a mosaic of traditional and modern grassland habitats	71
Chapter 6	Source-sink dynamics and predicted growth rate of a shorebird metapopulation in an impoverished agricultural landscape	91
Chapter 7	General discussion: Metapopulation dynamics and conservation applications	115
	References	127
	Samenvatting / Summary / Friese samenvatting (gearfetting)	143
